Continuation Sheet (PTO-303) 09/816,321

Application No.

Continuation of 2. NOTE: the inclusion of "a dry sheet media" as a part of a system for rupturing an encapsulated adhesive contained in a dry sheet media requires further consideration. Further, it is not clear as to whether the specification supports the "dry sheet media" as being a part of the "system" (i.e. apparatus) or being merely worked upon by the "system."
